## Terminal Box Aluminium

- ▶ for connecting 2-wire submersible transmitters
- ▶ robust aluminium case
- ▶ integrated pressure balance item

The terminal box KL 1 is intended for the professional electrical connection of 2-wire transmitters.

It offers integrated atmospheric pressure compensation. Optionally equipped with overvoltage protection and Pt 100 temperature sensor.

The terminal box KL 1 is equipped with a pressure balance item for equalization of atmospheric reference. Caused by this on the supply side a cable without ventilation tube can be used.

Vertical terminal clamps enable easy connection of cables inside. The terminal box has to be mounting via two fastening screws.

- ▶ aluminium die cast case
- ▶ ingress protection IP 66
- ▶ atmospheric pressure compensation with PTFE filter
- ▶ 2 signal lines
- ▶ optionally:
  - overvoltage protection with nominal discharge current of 10 kA
  - Pt 100 temperature sensor for submersible pressure transmitters with built-in Pt 100 sensor
